

Research Associate / Scientist

At a pioneering biotech startup in Utrecht, the Netherlands

Ready to combine your ambition with impact? Join us at Abvion, a biotech startup where we're redefining human therapeutic antibody discovery using a proteomics-based platform.

About us

At Abvion (www.abvion.bio), we are solving global health challenges by creating therapeutics rooted in the power of human antibodies. Our small passionate team thrives on curiosity, collaboration, and tackling big challenges. We are looking for a new teammate to help us grow and make a difference.

In this role, you will:

- Optimize and automate antibody screening assays at BSL2 level
- Measure and analyze samples by LC-MS
- Use advanced data analysis tools and scripting to interpret results
- Dive into experimental workflows, identify key challenges, and develop creative solutions

Who we are looking for:

A talented full-time Research Associate or early career Scientist located in or around the Utrecht area who:

- Has a natural curiosity and a demonstrated knack for solving problems
- Is eager to learn, grow, and help shape how we work
- Works diligently and strives for excellence
- Thrives in a dynamic environment where teamwork, communication and adaptability are key
- Has an affinity with digitization
- Has demonstrated research experience in one or more of the following areas: **Immunology, Therapeutic Development, Lab Automation, and/or LC-MS.**

What we offer:

Abvion is a young and dynamic company focused on early-stage research and innovation. Located in the Hugo R. Kruyt building of Utrecht University, we are strongly connected with the Heck Lab, world experts in mass spectrometry and proteomics. Here's what you can expect:

- A collaborative environment where your ideas are heard and your growth is encouraged
- Opportunities to take on responsibility and make an impact
- The chance to work on cutting-edge science with people who are as passionate as you are

We are seeking someone who shares our ambition, curiosity and commitment to team spirit. If this sounds like you, we would love to get in touch!

To apply:

Send your CV and a brief explanation of your motivation and fit for this role to contact@abvion.bio.

If you have any questions, feel free to reach out. Unfortunately, we cannot assist in obtaining a work permit or relocating to the Netherlands.
